
HOW SAFE ARE YOUR INVESTMENTS?

**ANTHONY T. NEWMAN,
PRESIDENT & CEO
LIFEGUARD FINANCIAL**

The stock market has plummeted over seven hundred points since you attended Lifeguard Financial's Retirement Planning Seminar. Do you remember me talking about meeting with Harry Dent and his prediction that the market will decline soon? He said investors should be aware of the risk in their portfolio and should create a better mix of investments that would avoid large losses. Have you done that?

Are you concerned about future losses? Allowing others to speculate with your money creates a risky situation. You should ask yourself if you are truly aware of what is being done with your nest egg. If you are relying on Wall Street to rebound and are not open to a second opinion on your holdings, we cannot help you.

Everyone can benefit from some simple advice from Warren Buffet:
Rule #1: Never lose money. Rule #2: Never forget rule #1!

If you are serious about protecting your hard -earned money and are open to making changes in your portfolio that will help, not hurt you, please schedule a meeting today.

Constantly striving for financial improvement is the basis of prosperity. It's important to develop a sound financial plan, implement it and remain vigilant about "financial tune-ups."

That's where my twenty seven years of experience managing money for investors like you will prove indispensable. Let's meet for a brief conversation to discuss your concerns about your current investments.

The first step to a prosperous future is to get going!

Please call Lifeguard Financial today to schedule a 30 minute visit within the next 5 days. I look forward to meeting with you.

Before you put this down, call Lifeguard Financial at 440-942-1936.

Sincerely,

Anthony T. Newman
President & CEO, Lifeguard Financial
